CAREER OBJECTIVE

Motivated engineering graduate (2025) seeking to begin my career through the Digital Business Marketing Apprenticeship at Google Operations Center. Skilled in data analysis, digital tools, Python, and problem-solving, with hands-on experience in AI/ML workflows, search evaluation, and structured data annotation. Eager to learn digital advertising, online campaigns, and client solutions while contributing to user-focused results.

EDUCATION

B.Tech – Electronics & Communication Engineering (2021–2025)

Vignana Bharathi Institute of Technology, Hyderabad

Class XII – MPC (2021) – 73.8%

Sri Gayatri Junior College

Class X – SSC (2019) – 87%

Neo English World School

SKILLS

Digital & Business Skills: Excel, Google Workspace, Data Analysis, Tableau, Power BI, UI Basics

Programming: Python, SQL, Java, R

Databases: MySQL

Other Skills: Problem-Solving, Critical Thinking, Research, Communication

EXPERIENCE

AI/ML Data Annotation & Search Evaluation Intern – iBroad Solutions (2024–Present)

- Evaluated search results for intent match to improve ranking accuracy.
- Assessed video–caption relevance and improved ML reliability.
- Assisted with Python scripting, SQL tasks, and debugging.
- Worked with large datasets for structured outputs.

PROJECTS

Missile Detection & Auto-Destruction System (GSM based)

- Built ultrasonic radar–based detection with automated targeting.
- Integrated GSM for real-time SMS alerts.

BCG GenAI Simulation – Forage

- Built rule-based AI financial chatbot and analyzed financial reports.

Commonwealth Bank Data Science Simulation – Forage

- Built ETL pipelines, anonymized data, and proposed analytics solutions.

CERTIFICATIONS

- Data Analytics Job Simulation – Deloitte (2025)
- Data Science Job Simulation – Commonwealth Bank (2025)
- Software Engineering Job Simulation – Goldman Sachs (2025)
